

UI Screen Map – Phase 1: Monthly Budget Management

This document explains the Phase 1 UI screens of the Track My Savings mobile application in a simple, non-technical way.

1. Phase 1 Overview

Phase 1 focuses on **day-to-day money management**.

In this phase, users can:

- Track income and expenses
- Manage credit cards
- View monthly cash flow
- See reports and charts
- Use calendar reminders
- Upload receipts

No future projections or retirement calculations are included in Phase 1

2. Overall Navigation Structure

3. Screen-by-Screen Explanation

3.1 Splash Screen

This is the first screen shown when the app opens.

What the user does

- Wait briefly while the app loads
- App checks whether the user is already logged in
- Automatically moves to the next screen

3.2 Onboarding Screens

These screens introduce the app's purpose to first-time users.

What the user does

- Swipes through short explanations
- Clicks "Get Started" to continue

Navigation

→ Moves to Login / Sign-up

3.3 Authentication (Login & Sign-up)

Allows users to create an account or log in.

What the user does

- Enter email and password
- Sign up for a new account or log in
- Can reset password if forgotten

Navigation

→ After successful login, user is taken to the **Home Dashboard**

3.4 Home Dashboard (Overview Screen)

This is the **main overview page** of Phase 1.

What the user sees

- Total balance for the selected month
- Month selector (Change Date)
- Trend chart showing **Income, Expenses, and Savings**
- Budget categories summary
- Recent transactions list
- Quick calendar view inside the dashboard

What the user does

- Gets a quick view of overall financial status
- Changes the month to review past data
- Reviews spending trends and categories
- Uses the **Plus (+) button** to add new records
- Navigates to other sections using bottom tabs

3.5 Money Section – Expenses

Shows **all** expenses entered by the user in a list view.

What the user does

- Views all recorded expenses
- Switches between expense categories or tabs
- Taps an expense to view details
- Uses the Plus (+) button to add a new expense

3.6 Add Expense Screen

Allows users to **manually add expenses.**

What the user sees

- Option to choose Fixed Expense or Variable Expense
- Date selection field
- Category selection icons

What the user does

- Enters expense amount
- Selects category and date
- Adds optional notes
- Marks expense as recurring if needed
- Saves the expense and returns to the previous screen

3.7 Money Section – Income

Displays **all income records** entered by the user.

What the user does

- Views all recorded income entries
- Switches between tabs
- Taps an income entry to view details
- Uses the Plus (+) button to add new income

3.8 Money Section – Credit Cards

Manages **credit cards** and **credit card transactions** entered by the user.

What the user does

- Views credit card balances and transactions
- Switches between tabs
- Adds a new credit card
- Records a card charge or payment

3.9 Reports Dashboard

Shows **visual summaries and charts** based on user data.

What the user does

- Views spending and income patterns visually
- Compares income and expenses over time
- Checks monthly financial performance
- Downloads reports if needed

3.10 Financial Calendar

This screen **shows all financial activities** mapped to calendar dates.

What the user sees

- Monthly calendar view
- Dates with income, expenses, and bills highlighted

What the user does

- Views upcoming bills and payments by date
- Checks past income and expense records
- Taps a date to see transaction details
- Navigates between months

3.11 Receipt Capture & OCR

Allows users to **scan receipts** and automatically extract details

What the user does

- Takes a photo of a receipt
- Reviews and edits extracted details if needed
- Saves the receipt as an expense
- Views past scanned receipts

3.12 Quick Actions (+ Button)

This screen appears when the user taps the **Plus (+) button** in the bottom navigation.

It gives users a **fast way to add financial records** without searching through menus.

What the user sees

- A popup panel called **Quick Actions**
- A list of simple action options:
 - Add Expense
 - Add Income
 - Add Card Charge
 - Scan Receipt
 - Quick Add

Navigation

→ After completing any action, the user is returned to:

- The relevant list screen (Expenses / Income / Cards)
- The Home Dashboard updates automatically

3.13 More Section

This screen acts as a **menu for additional settings and app options** that are not used daily.

What the user sees

- Profile summary
- A list of options such as:
 - Account & Profile
 - Security
 - Notifications
 - Preferences
 - Budget Settings
 - Retirement Settings

What the user can do

- Manage personal account details
- Change app settings
- Access help and support options
- Control notifications and privacy

3.14 Account & Profile

This screen allows users to view and update their **personal account details**.

What the user sees

- Profile picture
- Name and email
- Basic personal information

What the user can do

- Update profile details
- View account information
- Manage personal settings

3.15 Security

This screen helps users **protect their account**.

3.16 Notifications

This screen manages **alerts and reminders** sent by the app.

3.17 Preferences

This screen allows users to customize **how the app behaves**.

3.18 Budget Settings

This screen allows users to **control monthly budget limits**.

3.19 Retirement Settings

Allows users to enter basic retirement-related preferences

3.20 Help and Support

Provides support and information.

3.21 App Info

Displays application information and update details
